## INVITATION TO THE CITIZENAPP FAMILIARIZATION MEETING

In an effort to simplify activism and bringing it to everyone's convenience, Zimbabwe Coalition on Debt & Development (ZIMCODD) on the 16th of March 2023 launched the CitizenApp under the #TakeAction campaign (next phase of #HowFar). The mobile application facilitates reporting of public resources management issues whilst providing utility services such as jobs, current affairs and investigative leads.

The application has already garnered significant downloads due to its utility. We are currently calling on interested organizations to partner with us by plugging in their services. On the 13th of April, we are hosting a virtual familiarization meeting that will introduce potential partners to the application and scope collaboration.

*You're Invited!*
