

PORT OF THE PROPERTY OF THE PR

OVERVIEW

Zimbabwe has been trying to mobilise resources to respond in the best way possible to the devastating social and economic efects of corona virus. The Zimbabwe COVID-19 resource tracker is a civil society initiative by ZIMCODD to keep track of all resources pledged, received and utilised by the government of Zimbabwe in the COVID-19 response. ZIMCODD notes with concern that accountability for these resources is equally imporant as the resources themselves. This tracker has been developed to strengthen transparency and accountability by the government on COVID-19 resources while empowering citizens with information to hold the government to account on allocation and utilisation of COVID-19 resources. The tracker is updated on a weekly basis to show pledges honoured, resources received and resources expended.

THIS WEEK

HONOURED PLEDGES

MAJOR CONCERNS

- Citizens' right to healthcare continues to be under threat in light of the COVID-19 second wave.
- The collapsing service delivery in most local authorities countrywide remains a key issue of concern for citizens in the wake of COVID-19.
- Food insecurities, increased urbanisation and feminisation of COVID-19 induced poverty is worrisome given the rising cost
 of living. This is compounded by the poor management and misappropriation of COVID-19 funds intended to benefit the
 vulnerable.
- Citizens bemoan the lack of integrity, transparency and accountability by public officials in COVID-19 resource allocation and expenditure at both central and local government level which has been the breeding ground for corruption, resource leakages and abuse of COVID-19 earmarked resources.
- Pursuant to poor governance of COVID-19 resources, Citizens still await the former Health and ChildCare Minister, Obadiah Moyo's trial on the alleged Drax International saga to set precedence on cases of grand systemic corruption involving public funds.

RECOMMENDATIONS TO THE GOVERNMENT

- The government must channel COVID-19 funds towards improving public healthcare. PPEs remain central in the COVID-19 fight to flatten the curve.
- To provide social safety nets and prioritise effective public service delivery as it plays a greater role in protecting citizens from the deadly coronavirus. This will ensure that citizens' right to food and quality healthcare are guaranteed.
- Government must publish all COVID-19 funds received to date including a clear breakdown of allocations, disbursements and outstanding pledges. All COVID-19 resources disbursed to provinces and districts should be properly accounted for
- and outstanding pledges. All COVID-19 resources disbursed to provinces and districts should be properly accounted for.
 The office of the Auditor General should expedite the audit of COVID-19 funds and publish the findings to ensure
- transparency and accountability of all donations received.

 Expedite the due process of the law on everyone who falls victim of siphoning public resources including COVID-19 funds for
- @zimcodd

Zimbabwe Coalition on Debt and Development

personal gain to alleviate the abuse of COVID-19 earmarked resources.
