

# COVID-19 RESOURCE TRACKER

## OVERVIEW

Zimbabwe has been trying to mobilise resources to respond in the best way possible to the devastating social and economic effects of corona virus. The Zimbabwe COVID-19 resource tracker is a civil society initiative by ZIMCODD to keep track of all resources pledged, received and utilised by the government of Zimbabwe in the COVID-19 response. ZIMCODD notes with concern that accountability for these resources is equally important as the resources themselves. This tracker has been developed to strengthen transparency and accountability by the government on COVID-19 resources while empowering citizens with information to hold the government to account on allocation and utilisation of COVID-19 resources. The tracker is updated on a weekly basis to show pledges honoured, resources received and resources expended.

## THIS WEEK

## TOTALS

Illustrated below are sources of the resources pledged, honoured and utilised, All other forms of contributions have been converted into monetary value. All currencies were converted to USD at Government of Zimbabwe interbank rate. Percentage (%) indicates resources utilized

## GOVERNMENT OF ZIMBABWE

|                    |                   |       |

|-------------------|----------------|------|
| OTHER INDIVIDUALS | US\$164,206.00 | 100% |
|-------------------|----------------|------|

### MAJOR CONCERNS

- Citizens' right to healthcare as constitutionally guaranteed in section 76 continue to be under threat as the health sector has remained underfunded and incapacitated to manage COVID-19.
- The collapsing service delivery by most local authorities countrywide is a key issue of concern for citizens in the wake of COVID-19. Unavailability of safe, clean and portable water and poor sanitation infrastructure resultantly leads to outbreaks of various waterborne diseases.
- The increase in urbanisation and feminisation of COVID-19 induced poverty is worrisome given the rising cost of living. This is compounded by the poor management and misappropriation of COVID-19 funds intended to benefit the vulnerable.
- Citizens bemoan the lack of integrity, transparency and accountability by public officials in COVID-19 resource allocation and expenditure at both central and local government level as this has been the breeding ground for corruption, resource leakages and abuse of COVID-19 earmarked resources.

### RECOMMENDATIONS TO THE GOVERNMENT

- The government must channel COVID-19 funds towards improving public healthcare. PPEs should be prioritised for frontline workers and for schools in line with the re-opening of schools.
- To prioritise effective public service delivery as it plays a greater role in protecting citizens from the deadly coronavirus. This will ensure that citizens' right to quality healthcare, safe and portable water are guaranteed.
- Strengthen oversight and accountability institutions and anticorruption agencies to alleviate the abuse of COVID-19 earmarked resources.
- Government must publish all COVID-19 funds received to date including a clear breakdown of allocations, disbursements and outstanding pledges. All COVID-19 resources disbursed to provinces and districts should be properly accounted for.
